

# CNG Fleet Requirements

## AQMD Fleet Rules (15 min) Dean Saito, AQMD

An explanation of AQMD's Clean Natural Gas vehicle requirements for new municipal equipment operating within the LA Basin as well as recent examples of the waiver process.

## Equipment Options and Capabilities (15 min) Dave Thomas, Haaker

The options available for purchasing CNG vehicles and equipment specifications and capabilities.

## Clean Fleet Success Story (30 min panel discussion) Barry Berggren, City of Los Angeles, Bureau of Sanitation

The panel includes Mr. Berggren and members of the BOS field crew and fleet staff. They'll describe the challenges CNG equipment poses in the field and for fleet management, along with ways the City of Los Angeles is addressing those challenges.

1 day collection systems seminar.

## What is LABS of CWEA?

The Los Angeles Basin Section (LABS) of the California Water Environment Association (CWEA) is a group of wastewater and stormwater professionals dedicated to training, certification, communication, promotion of sound clean water policies and dissemination of technical information. There are over 1,000 members in Los Angeles. Help support our profession as a volunteer - contact President Wendy Wert, at [wwert@lacs.org](mailto:wwert@lacs.org).

## What is SSCSC?

The mission of the CWEA's Southern Section Collection Systems Committee is to continuously increase the level of professionalism of Collection Systems personnel involved in the operation, maintenance, design and construction of Wastewater Collection Systems, by providing education and training, taking an active role in promoting certification, and recognizing proficiency in our field.
