

**Los Angeles Basin Section of CWEA
Presents Michael Stenstrom, Ph.D, P.E.
Dept. Civil & Environmental Engineering
University of California Los Angeles
Presenting on Aeration, Membranes,
and Nutrient Removal**

Dinner Meeting and Presentation - April 25, 2019

Please join LABS to hear Michael Stenstrom, Ph.D, P.E. present on Aeration, Membrane, and Nutrient Removal. Dr. Stenstrom's research interests center around process development for water and wastewater treatment systems, including mathematical modeling and optimization. He has published numerous papers on these topics, and is always a very informative guest speaker.
