Virtual Presentation

Tapia WRF Process Air Improvements

John Zhao, PE, Las Virgenes Municipal Water District

Duong Do, PE, Environmental Water

Thursday, June 24, 2021

Noon to 1:00 p.m. Via Zoom

Please join LABS for our 5th virtual presentation to learn how the Las Virgenes – Triunfo Joint Power Authority (JPA), with PACE Advanced Water Engineering serving as the engineering consultant, led a process air improvement project at the 12 MGD Tapia Water Reclamation Facility (WRF) to improve energy efficiency and reduce operational costs.

Our Speakers:

John Zhao, PE – Director of Facilities and Operations, Las Virgenes Municipal Water District

John Zhao has been with the Las Virgenes Municipal Water District for the last 15 years. He served as a Principal Engineer and currently as the Director of Facilities and Operations to provide wastewater treatment and recycled water Distribution, Potable water treatment and distribution, and composting operations to approximately 90,000 people in western Los Angeles County and eastern Ventura County.

Duong Do, PE – Vice President, Environmental Water

Duong Do is a technical expert in civil and environmental engineering with experience spanning back to 1996. As a Vice-President of the Environmental Water Division, his current responsibilities include managing the design and engineering of water and wastewater treatment, storage, and conveyance projects. Mr. Do has served as the Engineer-of-Record and Project Manager for numerous wastewater treatment projects throughout the Southwestern U.S., including several award-winning facilities.
